

New Bendigo Hospital Project

Community Update

June 2011

New Bendigo Hospital Project

New Bendigo Hospital Project - timelines

- Construction commencement December 2012
- Project completion 2016.

New Bendigo Hospital

Project aim

- Create a world class regional hospital

Project principles

- Patients as active partners
- Continuity of care
- Functional flexibility
- Comfortable and safe for patients
- Comfortable and safe for staff
- Enabling our people
- Sustainability and efficiency
- Information and communication technology enabled
- Connecting with Bendigo and the wider Loddon Mallee region.

New Bendigo Hospital - project vision

When the New Bendigo Hospital is commissioned in 2016, Bendigo Health will be a world-class regional health service in an integrated academic precinct.

It will be in the top quartile of comparable health services across Australia in terms of key performance indicators including access, quality and efficiency.

The community in Bendigo and beyond will have pride in their local regional health service and confidence in the ability of Bendigo Health to meet their needs.

The New Bendigo Hospital will provide a tranquil and caring environment.

Staff will be attracted to work in the New Bendigo Hospital by the commitment to ongoing learning, research and innovation in a 21st century environment.

New Bendigo Hospital - project vision (cont)

The New Bendigo Hospital will welcome visitors with convenient parking and comfortable facilities.

The New Bendigo Hospital will be sustainable, energy-efficient and future-ready.

Bendigo Health will partner effectively with other health services in the region and beyond to ensure continuity of care and local delivery of treatment where possible.

Information on Bendigo Health services will be readily available to patients and their families.

Modern technologies will support treatment and recuperation in hospital and at home where possible.

New Bendigo Hospital Project - enabling works

Enabling works are underway to prepare and clear the site for construction of the New Bendigo Hospital and include:

- Relocation of ambulance services
- New car park
- Mercy Street closure
- Temporary energy plants
- Demolition
- Intersection works.

Boiler control panel

Enabling works will be completed by December 2012.

New Bendigo Hospital Project - enabling works

- A new car park has been opened on the corner of Mercy and Drought streets offering 80 additional car parking spaces
- Mercy Street has been closed as part of the enabling works.

The new car park on the corner of Mercy and Drought Streets
